

CO850MBXi

**MAINS POWERED
CARBON MONOXIDE
ALARM WITH
BATTERY BACK UP**

The Dicon CO850MBXi Carbon Monoxide Alarm is approved to BSEN50291, the latest and most rigorous of standards. It measures the concentration of Carbon Monoxide and sounds a loud alarm when a potentially harmful level is reached. The unique automatic self test feature tests the sensor every month using gas. Changing the replaceable sensor after six years will give the alarm at least ten years life. The unit is mains powered with a battery back up power supply that powers the alarm in the event of a mains failure. The additional feature of the interlink allows the alarm to be connected to other CO alarms so that when one sounds, they all do.

FEATURES

- Approved to BSEN50291 Licence No: KM57514
- 230 VAC Hard Wired.
- Battery Back up
- Visible and Audible 85dB Alarm
- Instant Test/reset Feature
- Unique Self Testing Sensor Using Gas.
- Replaceable Sensor Allows Ten Year Plus Life.
- Interlink up to 18 alarms
- Power, Alarm and Fault Indicators
- 6 Year Comprehensive Warranty
- CE

TECHNICAL SPECIFICATIONS

Detection Method	Electro-chemical sensing technology
Sensitivity	Low set point of 50ppm
Dimensions	134mm(h) x 69mm(w) x 60mm(d)
Operating Voltage	230 volt AC (⌚) 50-60Hz, 10W
Back up Battery	PP3 style alkaline.
Interlink	Up to 18 alarms
Recommended Operating Temperature Range	-10°C to +40°C
Alarm Sound Level	85dB at 3m

Please note that specifications may be subject to change.
