

DRY POWDER FIRE EXTINGUISHERS & FIRE BLANKET

The Dicon KM range of dry powder fire extinguishers is designed for use in home and car. They are light in weight, simple to operate and supplied with sturdy steel clips for wall mounting. KM600 and KM950 may be used on BC fires (petrol, oil, gas, paints, solvents, and greases). The KM1000 may be used on ABC fires. All models are safe for use on electrical fires.

The Dicon FB1100 Fire Blanket is a generous 1m square of fireproof fabric, especially useful in kitchens. Deployed from its sturdy wipe-clean PVC casing, by simply pulling on two tapes, the FB1100 is immediately ready for use.

FEATURES

Fire Extinguishers

- Manufactured in UK under Quality Management System to BSEN ISO 9001:2000
